EDUCATION

University of Bamenda, Cameroon – *DIPET I*

Oct 2016 - Dec 2019, Bambili

Studied computer science, graduated as a High school teacher!

AWARDS

UBa Open Door Project Contest - *2019*

I was awarded Best IT project in the University of Bamenda after I build a distributed system to manage the meals, staff, and food sessions in the school restaurant. The final product allowed students to pre-order and pay for meals via mobile money (the easiest payments methods in Africa) with digital tickets available that are validated using QR Code Scanners.
